MEDICAL DEVICE AND BIOCIDES USE SAFELY

Please read label and product information.

INDICATIONS

Medical Device: Ready-to-use disinfection liquid for non-invasive medical devices.

Biocide: For general surfaces.

INSTRUCTIONS FOR USE

1L with sprayer:

Clean the surface upfront. Spray surface from approx. 30cm, wipe the surface with a clean wipe and leave to dry. Alternatively, apply the product to a clean wipe, wipe the surface completely and leave to dry. Respect the indicated contact time for the required antimicrobial activity.

Medical Device: Rinsing is unnecessary unless when areas to be treated are intended to come in contact with skin or mucosa. Please consult manufacturer's instruction for use for cleaning and disinfection of medical devices. Check compatibility of the alcohol sensitive surfaces before use

Any serious incident that has occurred in relation to the device should be reported to the manufacturer and the competent authority of the Member State..

COMPOSITION

100g contains: 35g Propan-2-ol (CAS N° 67-63-0), 25g Propan-1-ol (CAS N° 71-23-8).

STORAGE

Product should be stored in the original container between 0°C and 25°C in a cool, dry location out of direct sunlight.

FOR PROFESSIONAL USE ONLY
